Submitted to the Dewan of Mysore.

URGENT.

Dis. No. 4803
1913-1914
G.A.
174-13.
1.

On account of the growing expenditure of some of the departments of the State due to the expansion and development of those departments and to record the receipt of the surplus revenues of the Bangalore Assigned Tract, it has been found desirable to effect certain changes in the headings of our accounts. The following are some of the changes which I propose to introduce with effect from the next official year:-

(1) On account of the growing importance of the Sanitary, the Agricultural and the Industries and Commerce Departments, to constitute these items which are grouped as minor heads under Medical and Sanitation and Scientific and other Minor Departments respectively into separate major heads as under:-

Receipts.		Expenditure.	
XlV A.	Agriculture	18.A.	Agriculture
XlV B.	Industries & Commerce	18.B.	Industries and Commerce
XV A.	Sanitation & Vaccination.	20.A.	Sanitation and Vaccination.

(2) To open another Major head I.A. Assignments and Compensations on the expenditure side. Assignments and compensations paid to parties on account of loss of revenue etc., are now being charged off separately in the accounts under various major heads as for instance the following:-

(a) Malnad Land Inam payments now included under 2 Land Revenue (7) Assignments.

(b) Compensation to Sringeri Jahgir on account of the abolition of the halat on supari, charged under 26 Miscellaneous (4) Contributions.

(c) Toddy and other Excise revenue due to Inamdars charged under I. Refunds and Drawbacks 3. Excise. A separate Major head for

these items is in accordance with the classification authorised by the Civil Account Code.

(3) To open a new Major head IX A Surplus Revenues of the Bangalore assigned Tract on the Receipt side. This is in consequence of the claim of the Mysore Government for the surplus revenues of the C & M Stations having been recoganised by the Government of India.

(4) A new debt head for showing the transactions under Village Improvement Funds will also be opened.

2. As it is desirable to separate in the budget the years' transactions proper from the extraordinary Public Works and Railway expenditure, I propose to divide the annual Financial Statement accompanying the Budget and printed in the Gazette into two parts viz., Part I - dealing with the Revenue and Service heads, but excluding Capital expenditure on Railway Construction, Cauvery Reservoir, Electric Tramways and C.P.S. 4th installation and working to a surplus or deficit.

Part II. Starting with the Surplus (or dificit) and dealing with above-mentioned Capital expenditure not charged to Revenue and transactions relating to Debt heads and working from the opening balance to the closing balance for the year.

3. I do not consider the present system of accounting and estimating under which all exoenditure - whether ordinary or extraordinary-is shown in one place without any distinction, as very satisfactory, and I am therefore considering the question of a stricter separation of extra-ordinary Capital and other expenditure so as to make the budget a record of the years' ordinary transactions and remove violent fluctuations from it by providing suitable reserves for

special expenditure. My proposals in this matter will be submitted for your approval later on to take effect, if sanctioned, from the year - 1915-16.

4. The other proposals contained in paragraphs 1 and 2 above, I propose to introduce in the budget and accounts of the ensuing year. These are purely account matters and the changes proposed might under the rules be introduced by me in the usual course, but as they are somewhat important, I submit them for approval before adopting them. I solicit early orders to enable me to introduce the changes in the budget for next year to be issued shortly.

24-4-1914.
